BLUE flashing = Online
BLUE continuous = Not Online

Internal OR Optional External Antenna

OK (Signal Strength):
GREEN Flashing with number of flashes/pause = Connected to Network with Network strength
GREEN Flashing with 1 second pulses = Not connected to the Network

TECHNICAL

- Complete kit, optional 4G LTE SIM card* power supply and internal antenna (external antenna opt extra)
- 4G LTE backwards compatible, allowing access across 4G, 3G, 2G networks
- A Site Signal Network Test to be undertaken before installation (performance is reliant on continuous network coverage)
- Antenna should be sited to optimise signal strength
- Must not be installed in a damp location without additional protection
- 900 Authorised numbers
- 400 PIN Access Codes
- Internal Time Clock x 9 time profiles allowing zone activities and over-rides
- Built in Interface for TelPad via CANbus
- Remotely programmable through **ALERT One** App. Download the App at www.commtel.tech
- Customised Text Alerts
- Activity Logs built in for diagnostics and history

*Subject to activation order
